Undergraduate Students

Twice each semester, the Office of the Registrar notifies students that grades are available for review through Self-Service for both midterm and final grading periods.

Midterm grades provide students with formal feedback about their academic progress and performance at approximately the midpoint of the semester. These grades are used for advising purposes only and are not included in the student's permanent academic record.

Final grades, awarded at the end of the semester, become part of the student's official academic record.

Academic information may only be released to individuals outside the appropriate College officials with the student's written permission.

Graduate students

Graduate students receive notice to review their final grades via Self Service. Students enrolling in undergraduate (UG) and graduate (GR) courses concurrently will view UG and GR grades separately, each with their own indices. No mid-semester grades are issued for graduate courses
