ST. FRANCIS COLLEGE

St. Francis College Census Day Policy

St. Francis College calculates its student census once during each fall and spring semester of the academic year. Census Day is exactly three weeks from the first day classes or the 22nd day of the semester. The census data reflect the final student unduplicated headcounts based on the number of students enrolled during any semester. This policy establishes the standardized date for when the data will be available to all units of the college.

In advance of Census Day, please review, and if necessary, update your unit's policies and procedures to ensure all data that will be used by Institutional Research is up to date and accurate.

For the fall 2026 semester, Census Day will be as follows:

First Day of Classes	Census Day	Data as of
Wednesday, September 9, 2026	Wednesday, September 30, 2026	Friday, October 2, 2026

For the spring 2027 semester, Census Day will be as follows:

First Day of Classes	Census Day	Data as of
Wednesday, January 20, 2027	Wednesday, February 10, 2027	Wednesday, February 10, 2027

Office of Institutional Effectiveness & Accreditation – Effective as of 1.15.20
Updated 11.12.26 for 26FA semester
