Courses and Registration

179 Livingston Street, Brooklyn, NY 11201 • Office of Academic Affairs • academicaffairs@sfc.edu

Undergraduate students

The Office of the Registrar schedules registration appointments twice each year. In the spring semester, students register for summer and fall courses. In the fall semester, students register for winter intersession and spring courses. Students are encouraged to register early, when more course sections and class times are available. Specific registration dates can be found in the Academic Calendar.

Students are also encouraged to meet with an academic or career advisor to review course selections and check their degree audit. Registration depends on satisfactory academic performance in the previous semester and completion of all required prerequisites. By registering for classes, students agree to fulfill all payment obligations required by Student Financial Services. Students may only attend courses for which they are officially registered and must attend the specific section listed on their schedule.
